

We are a small and hands on firm specializing in Value Enhancement for our clients in the energy sector. Our core competencies are based upon many years of Industrial experience gained through key leadership positions in a variety of Subsea and Offshore companies.

In order to have unique insights, which help enable great strategy, we believe it to be essential to have the hands-on experience of leading and managing businesses in the sectors our clients operate. This operational and industrial experience enables a deeper understanding of the challenges and opportunities our clients face.

We are based in both Bergen, on the west coast of Norway, and Aberdeen, on the east coast of the UK. Bergen is renowned as one of the energy industries major maritime and subsea centers of excellence whilst Aberdeen is renowned as the energy capital of Europe.
